

In Memory of Ithaca

On August 23, 2005, Ithaca lost her battle with cancer.

She was our first Guiding Eyes pup-in-training. Ithaca arrived in our home on September 26, 1999 and stayed with us through the summer of 2000. We enjoyed her presence with us as we prepared her for formal guide dog training.

She was released from Guiding Eyes in October 2000 and was adopted by the Schwartz family. They were on the adoption list for four years and were so, so happy to receive the news of their adoption of Ithaca.

They live near the training school in Yorktown Heights, NY, and I was able to visit with them after her adoption.

They kept in touch with us over the past four years, always expressing how lucky they were to have received Ithaca...*they truly loved her...and she will truly be missed by all!*

Lou and Margie Coccodrilli
